

Who said only men could sport an elegant tie knot?

- Begin with bias band fold on a square scarf.
- Let the scarf dangle around your neck from under the collars.
- Cross both ends and let one end (A) pass from under the other (B) twice.
- Then bringing A upwards as illustrated, let it pass through the loop such that A is in front of B.
- This will give it a shape of a graceful men's tie knot.
